

Rinato Spa™

One glance at our Rinato Spa™ and you'll instantly notice its sleek, clean, contemporary styling. Activate the remote control to start the relaxing chair massage system and heated seat cushion. Then slip your feet into the swirling, revitalizing water massage for a pause that relaxes, refreshes and rejuvenates. In addition to Rinato's stylish looks and ultra-comfort features, this spa is also the ultimate technician's tool. Its unique design gives the technician fingertip access to every spa function, and provides ergonomically correct positioning up close for all spa treatments.

You'll enjoy the peace of mind knowing your Rinato Spa™ features the latest advancement in sanitation control with our new Clean Touch Pipe-Free technology - designed to dramatically cut the time it takes to sanitize your spa between clients. With its custom designed basin and scientifically engineered water massage technology, the Rinato features the fastest and easiest pipe-free system to clean and sanitize available today.
