

BIG SPA FEATURES. SMALL SPA PACKAGE.

Sometimes space or plumbing limitations will not allow the addition of a fully-plumbed pedicure spa. Or, perhaps pedicures aren't your salon's primary income, but you want to provide those elite clients with a high-quality pedicure service without investing a lot of money.

At European Touch, our goal is to provide the very finest pedicure spa system for every type of salon or spa. That's why we created our popular Petite Spa. This compact, portable unit is simple to operate, can be easily moved, and can be quickly filled or drained using an ordinary faucet and sink.

No fixed plumbing hookups are needed here. The Petite Spa provides a superb hydro-therapeutic water massage treatment for the feet. Plus, with its tilting footrest, handy storage compartment and low profile, our Petite provides an exceptionally efficient and comfortable workspace for the technician.

An adjustable footrest can be positioned up or down for the comfort of both client and technician. The footrest also serves as the lid covering a convenient storage area for tools, polishes and pedicure supplies.

A tub cover is included to help eliminate splashing from the tub when transporting the spa. When not in use, the hoses and fittings can be kept inside, keeping everything clean and ready for when you need it.

Our Petite Spa requires no fixed plumbing hookups. To fill, just connect the fill hose to any faucet. And when you're ready to drain, simply attach the drain hose to the spa's outlet connection and activate the "on" switch. That's all there is to it. All hoses and fittings needed are included with the spa.

This compact mobile spa measures 27" x 27" and rolls easily on its four specially designed and lockable casters. An efficient 1/2 horsepower motor powers a satisfying hydro-therapeutic water massage through two fully directional jets. Fill it up, plug it in, turn on the jets, and you've got the perfect solution for your mobility, space, or budget limitations.

Petite Spa Color Palette The Petite pedicure spa comes in a palette of six tub finishes, all with black trim - allowing you to customize your spa to your salon's unique decor and environment.
